AP Computer Science Boot Camp
Assignment 3 - Strings

Due Date

Sat 6pm, July 31, 2017

Directions

In this assignment, you should learn how to use Java String. Please use Java Doc to learn the following methods provided by String, and write a simple demo for each of the methods:

- lastIndexOf()
- replace()
- replaceAll()
- startsWith()
- endsWith()
- substring()
- toLowerCase()
- toUpperCase()
- trim()
- charAt()

Then, you should use the String methods to reverse a String by half. For instance, you can set a String to be "abcdefghijklmn". After the reverse, you should print out the String "hijklmnabcdefg".
